14 Smile

"The perfect smile creates a younger look to a maturing face," says Dr Joe Oliver of London's Welbeck Clinic. "Cosmetic dentistry helps sculpt, brighten and de-age your teeth."

Make-up tricks

Simple techniques sculpt, shape and highlight your features to create a more youthful look

12 BE CLEVER WITH CONCEALER

The right concealer (peach or yellow-toned, such as **Benefit Lemon Aid Concealer**, £15.50) will neutralise dark under-eye circles. Press into place with a fine brush; never rub on or it will come straight off.

13 Start right

Always take your time when choosing a new foundation. Match the shade to the skin on your jawline, where the right one should disappear. For texture, think of your skin type: drier skin suits a cream or mousse formula applied over the T-zone (mineral foundations and powders are drying, so use sparingly); oilier skin suits long-lasting oil-free formulas and speedy compact foundations for touch-ups.

Try **Nars Sheer Glow Foundation**, £29, or **L'Oréal Paris Studio Secrets High Definition Smoothing Foundation**, £15.99
